## Vote Saturday on Consolidation of School Districts

### Merger of Antioch, Bean Hill to Be up at Special Election

The proposed consolidation of Antioch Grade School District No. 34 and Bean Hill District No. 30 will be voted upon by residents of both districts in a special election called for that purpose and scheduled to be held this Saturday.

For the purposes of this election, and in keeping with state school law provisions for such elections, three special polling places have been set up.

All members of the Antioch school district residing within the village limits will vote at Antioch Grade school from 12 noon to 7 p. m.

Residents of the Antioch district living outside the village and west of Highway 21-83 will vote at the Barney Naber service station at the southwest corner, junction of Highways 59 and 173, during the same hours.

Residents of the Antioch district living outside the village and east of Highway 21-83 will vote at the Barney Bean Hill district will vote in the Bean Hill school, also from 12 noon to 7 p. m.

In the event that the voters of the two districts favor consolidation, the present school boards will be automatically dissolved, and a new board is to be elected for the new district.

This would consist of seven members—a president, for a one-year term, and two members each for one-year, two-year and three-year terms. Present members of the Bean Hill school board are Mrs. Gunhilda Wilton, president; Mrs. Charles Alvers, Jr., clerk, and Albert Berkiel.

On the Antioch board at the present time are Mrs. Ida Kufalk, president; Mrs. Myrtle Klass, secretary; Henry Rentner, Arthur Laursen, Harold E. Cardiff, Roy Burdick and Mrs. Joseph Patrovsky.

Petitions for candidates for the new board would have to be filed with County Superintendent W. C. Petty by March 24. The election of the new board members would then be held on the second Saturday in the following month, April 14.

The Bean Hill pupils have been attending the Antioch school for the past two years.

## Girls' Club to Hold Bake Sale Saturday

As part of its efforts to raise funds for a new tennis court at the school, the Antioch Grade School Girls' club is sponsoring a bake sale to be held in the Antioch Packing house market at 925 Main street, Saturday.

Baked goods donated for the sale will be picked up by the club members Saturday morning. In the event that any donations are inadvertently overlooked, it would be greatly appreciated if the donors would take them to the Packing House.

Money raised through the bake sale will be applied toward the total of \$70 or more the girls are endeavoring to contribute for the tennis court. Boys at the school are planning to raise about \$180 through scrap drives and other projects.

## School Medal Award Talks End Next Week

Concluding the series of School Medal Award talks being given weekly at Antioch Grade school under the auspices of the Antioch American Legion post will be one on "Scholarship" by Principal T. R. Birkhead of the High School next week.

This week Coach Albert Kroll of the high school spoke on "Leadership." Last week's talk, on "Service," was given by Dr. L. J. Zimmerman. The series of talks was arranged by Otto S. Klass, chairman of the Legion's Americanization committee. The school medal will be presented at the annual eighth grade banquet to the student voted by the pupils as being most representative of the qualities stressed in the talks.

## "Spring Favorites" Will Figure in H. S. Concert

The "Sequoia Music Makers," Antioch Township High school's jazz band and soloists, will present a program of "Spring Favorites" at the school Friday evening, March 23.

The band consists of about 16 players, under the direction of Hans von Holwede. Eight soloists will be featured during the program.

A second musical program to be given at the school, the annual spring music festival, is scheduled for May 11.

## "Patriotic Night" to Honor Service Men and Women

A "Patriotic Night" program honoring men and women in the service from this vicinity will be held in Antioch Township High school gymnasium Tuesday evening, April 10, under the auspices of Sequoit Lodge, A. F. and A. M., according to an announcement made this week by Elroy Anderson, worshipful master.

A special reserved seat section will be set aside for the relatives of those in the service. Two tickets will be sent to the families of the men in the service.

A number of well known personalities will appear on the program, it is stated by Anderson, among them being Vincent Gottschalk, Margerite Conrad ensemble and other radio and stage stars will appear.

### BERNICE CHAPES ENTERS 14TH MONTH IN WAVES

"I have spent many happy days in Antioch and like to read about the people I've met and places I know," Bernice L. Chapes, Sk 2/c, of the Waves, writes from Oakland, Calif.

"I have been stationed in California since last May and my duties are with the General Supply branch at the Naval Supply depot in Oakland.

"There are approximately 700 of us Waves on the depot, some working in the warehouses and some in the offices. Of course we know we aren't doing as much as the boys over there, but it helps to know that in a small way we are helping to keep them well supplied.

"I will be celebrating my fourteenth month in the Waves.

"I've been more fortunate than most while I've been stationed here, as I saw Jack Howe out here last June, and a few months ago, Herb Klammer of Waukegan."

## Jack Crandall Is Injured When Car Hits Tree

### Ex-Service Man Suffers a Fractured Leg, Other Injuries Wed. a. m.

A fractured leg and severe gashes just below the kneecap were among the injuries suffered by Jack Crandall when his car left the road and struck a tree just south of the home of Mr. and Mrs. Robert Runyard, Jr., Highway 59-A, early Wednesday morning.

He also had a brain concussion, a broken bone in one hand, and cuts and bruises about the head and chest. His condition this morning was, however, pronounced as good as could be expected in view of the injuries and shock he had sustained.

He was discovered by Runyard, who investigated when his watch dogs created a disturbance around 4:30 or 4:45 o'clock.

The Antioch Rescue squad was called, but was met in the village by Runyard and Carl Barthel, who had meanwhile removed Crandall from the wrecked car and brought him to town.

Crandall was given first aid and was removed to St. Therese hospital by Dr. I. L. Breakstone and the squad members. X-rays were taken and his mother, Mrs. Leslie Crandall, was summoned from Chicago, where she had been visiting relatives.

Crandall is believed to have been returning from a trip to Chicago when the accident occurred, and it is thought that he may have fallen asleep at the wheel.

He recently received an honorable discharge after serving in the Sea Bees overseas for an extended period.

His automobile was badly damaged and was removed to the Ford garage here.

## Casey Clarifies Regulations for Midnight Curfew

Clarification of the curfew on after-midnight drinks and entertainment was made today by Charles P. Casey, Illinois War Manpower Commission director.

Taverns, night clubs, road houses and all establishments licensed to serve alcoholic beverage must close at midnight, but may open for business at their customary opening hour.

Package liquor stores where drinks previously have been consumed on the premises must close at midnight. Package liquor stores where drinks have not been served on the premises may continue open until their usual closing time.

Restaurants and eating places, customarily operating 24 hours a day, or during the entire period between midnight, but all others must close at 12 o'clock. Casey stressed that establishments remaining open shall not provide entertainment or sell, serve or permit the consumption of intoxicating liquor between the hours of 12:00 midnight and the customary opening hour. He explained that all restaurants and eating establishments may open at their customary opening hour.

Restaurants with bars or serving alcoholic beverages and which operate 24 hours a day must stop the serving of drinks at midnight, but may remain open to serve food.

All forms of entertainment such as dancing, juke boxes or miniature movies must cease at midnight. This includes juke boxes or phonographs in restaurants.

Twenty-four-hour-a-day restaurants which customarily close an hour in the morning to clean up may continue to re-open after cleaning without endangering their right to serve food after midnight.

The midnight curfew applies also to all private clubs, private wedding parties, private dances, and all organizational functions such as American Legion parties where the serving of drinks and dancing would ordinarily continue after 12 o'clock.

The curfew also stops room service in residential or transient hotels at midnight, but allows service to be resumed at the usual hour in the morning.

Also under curfew restrictions are the following, whether public or private: amusement parks, carnivals, circuses, coin-operated amusement device parlors, ice and roller skating rinks, sport arenas, theatres, shooting galleries, pool and billiard halls, bowling alleys, and dance studios or schools.

## Red Cross Funds Now \$600, Fifth of Goal for '45

### Contributions of Residents Who Are Away Help Increase Total

Roman Vos, chairman of the Antioch Township Red Cross drive, and George Wagner, co-chairman, are the committee for visiting the business section of the village during the next few days.

"Contributions of about \$600 have already been accounted for," Vos announces. "This amounts to about a fifth of our quota, so the greater part of our task is still before us."

A number of residents who are away have already responded to letters sent to them by Vos. Some are making contributions both here and in the communities where they are spending the winter months.

Word received from the area office in St. Louis indicates that Red Cross disaster relief workers are standing by to give assistance, if needed, in the areas menaced by the rising Ohio and Mississippi rivers.

So far, there has been no indication that the Antioch Rescue squad, which is a Red Cross mobile unit, will be summoned to the flood areas, Herman Holbek, captain of the rescue squad and disaster relief chairman for Lake county, states, however, that he has been notified to keep in touch with the area offices in St. Louis in the event that the squad is needed.

Mrs. Rose J. Lidschin, Waukegan, chairman of the Lake county drive publicity committee, calls attention to the fact that, "As at Hickam field, when the Red Cross swung into action 20 minutes after the first bombs fell on Pearl Harbor, trained personnel are prepared to act, when needed, in peace and in war."

Attention is also directed by the county committees to the statement by Eric A. Johnston, president of the U. S. Chamber of Commerce, who said, "Throughout the world today misfortune and misery are at a peak. War has not only aggravated the inescapable impact of natural disasters such as fires, floods and hurricanes, but also has heaped upon these the many man-made woes that always accompany clashes between armed forces. Never before in the world's history have so many people suffered sorrow and affliction from causes beyond their control. Never before has there been so widespread a need for concrete evidence of man's universal brotherhood."

## Dr. Speer to Address High School P. T. A.

"Vocational Guidance" is the subject upon which Dr. George S. Speer, dean of the Y. M. C. A. college, Chicago, will speak at a meeting of the Antioch Township High School Parent Teacher association Monday evening March 19, in the high school.

Mrs. Lester Nelson, chairman of the hospitality committee, will be in charge of the social period.

Dr. Speer has had a great deal of experience on counseling students and his talk is expected to be both interesting and informative.

## Funeral Services for Mrs. Velisek Held Mon.

Lake region friends of the Velisek family learned with regret of the death of Mrs. Libbie Margaret Velisek, 44, of Long Lake, in an automobile accident Wednesday night near Wheeling, Ill., when the in which she was riding struck a tree.

Funeral services were held Monday afternoon in the Grant Township High School auditorium, with the Rev. Vernon Kilgren officiating. Burial was in the Bohemian National cemetery, Chicago.

Survivors include her sons, Norman and Robert, and a daughter, Norma. Her husband preceded her in death in 1936.

A son, Ens. Frank Joseph Velisek, was killed in flight training at a navy air base July 20, 1943.

Norman, 17, who is a navy inductee, was driving the car when the accident occurred. He suffered cuts on his hands and face. He reported that he believed the car left the road when he fell asleep at the wheel.

Mrs. Velisek had resided in the Long Lake area for 23 years. She was treasurer of the Fox Lake High School district and was active in the American Legion auxiliary. She received her education in the Chicago public schools and at St. Mary's college, Notre Dame.

## Grass Fires, Kerosene Stove Bring Three Calls

Two fires during the past week were reported at a meeting of the Antioch fire department Tuesday evening.

There was a grass fire in the Shunneson subdivision at Grass Lake Saturday afternoon at 3:45 o'clock. No damages resulted.

A kerosene stove set fire to the farm residence of Sam Strahn, on the west side of Highway 21-83, just north of the Charles Alvers State Line Service station north of Antioch, last Thursday afternoon at 4 o'clock. Damages amounted to \$75.

Another grass fire was extinguished Wednesday evening, on the north side of the Soo Line tracks, near the Antioch Packing plant. There were no damages.

Antioch Girl Scouts will visit the fire station next Wednesday afternoon and will hear a talk by Fire Chief L. R. Van Patten.

## Lions Vote Aid to Red Cross; Hear Talk by Pickard President

A contribution of \$100 to the Antioch Township Red Cross drive was voted by the Antioch Lions' club at a meeting Monday evening in the Colony House.

H. A. Pickard, president of Pickard, Inc., gave a brief talk on the history of the company, which has been active in the production of fine chinaware for nearly 50 years.

Spring and summer plans of the club were discussed during the business session following the 7 o'clock roast beef dinner.

Reports were given by a committee which made a trip to Springfield last week, to discuss with senators and representatives plans for an appropriation for the improvement and conservation of natural resources in the Chain of Lakes area.

Mr. and Mrs. Charles S. Mayer of the Gaylord Hotel, Chicago are the guests of Mrs. Sidney Kaiser this week.

## All but One of Village Officials File for April 17

### Mrs. Martha Hunter, R. B. Vos Are Candidates for Treasury Vacancy

Candidates whose nominations have been filed for the Antioch village biennial election Tuesday, April 17, include, on the People's party, George B. Bartlett for president; W. I. Scott, Frank D. Powles and James Stearns for trustees; Roy L. Murrie for clerk; Mrs. Martha Hunter for treasurer, and Elmer Brook for police magistrate. All, with the exception of Mrs. Hunter, are incumbents.

Roman B. Vos is a candidate for treasurer on the Independent ticket. Mrs. Vera L. Rentner is the retiring treasurer.

Tuesday evening at 12 o'clock was the deadline for the filing of nomination papers.

Withdrawals or objections must be filed by March 17.

### Absentee Ballot Dates

March 19 is the first day on which voters may apply for absentee ballots. April 12 is the last day for the posting of cards of instruction and specimen ballots. It is also the last day on which applications may be made by mail for absentee ballots. April 4 is the last day on which application may be made in person for absentee ballots.

The final date for newspaper publication of the list of nominees is April 16.

## Work of Removing Sand from Septic Tank Begun

Aided by warm weather which has thawed the frozen surface, a crew of men has been busy this week removing sand from the village septic tank filter beds, preparatory to replacing it with fresh sand.

About half of the gravel had been removed by Wednesday, and it was believed that in the event the weather should continue to be favorable, the work would be completed this week.

The village trustees have made arrangements with the Carey Electric and Plumbing shop for some pipe work to be done next week. Some of the pipes necessary for the functioning of the tank have been found to be badly rusted and in need of replacement.

## Farm Evening Classes Will Conclude Tonight

A series of ten farm evening classes which has been held at Antioch Township High school on Thursday evenings will be closed tonight when F. J. Knox and P. W. Scherschel of the Pure Milk association are to speak on "Marketing and Sales of Dairy Products" and "Laboratory Testing for Quality."

Sixty attended last Thursday evening's meeting, at which C. L. Kutil, vocational agriculture instructor at the school, spoke on "Pasture Improvement."

Attendance at the meetings has ranged from 45 up. The second meeting had the highest attendance to date, with 67 present.

## ROBERT PITMAN RESCUES WOUNDED BUDDY UNDER FIRE

With the 45th division of the Seventh army in France—Crawling 300 yards through intense German artillery and rifle fire, Sgt. Robert E. Pitman of Antioch, Ill., made his way to the side of a wounded companion and brought him back to safety.

The infantry company of the veteran 45th "Thunderbird" division was attacking a German position when machine-gunner Pitman saw one of his buddies fall wounded in front of the German lines.

Pitman skirted rocks and open places and made his way through a densely wooded area to get to the side of the wounded man.

"Fortunately, he wasn't hurt too badly," related Pitman. "With a little help from me, he was able to make it back to the medical aid station."

His mission accomplished, Pitman returned to his machine gun and resumed laying down a protective sheet of fire ahead of the advancing infantrymen.

Sgt. Pitman joined the 45th division in September, 1943. He participated in the Italian mountain campaign, the invasion and breakthrough at the Anzio beachhead, the invasion of southern France and in the campaign in the foothills of the Vosges mountains in France.

The Antioch soldier has been awarded four campaign stars, the combat Infantryman's badge and the Good Conduct medal.

## Is It Just A Slogan?

Fire prevention officials have good reason to question the sincerity of the much publicized public desire for freedom from fear and want. Through rank carelessness 10,000 persons lose their lives each year by fire, and half a billion dollars worth of property is destroyed. Certainly fire, when it strikes, spells terror to its victims. And what can create want more speedily than the sudden destruction of a home or place of work by fire?

Here is one great creator of fear and want that we permit in our midst simply because we are too indifferent to control it. Fire prevention authorities do all in their power to teach people the fact that real fire prevention begins with the individual, with the family, in the home. They repeat again and again the old story of cluttered attics, refuse strewn basements, improper construction, and, last but not least, what to do in case of fire to help avoid needless loss of life. They warn against opening a door if it is too hot to touch or trying to flee down an open stairway in the face of upward sweeping flames. Their warnings are simple, take little effort, and yet wanton negligence continues.

If we mean it when we roll the slogan of freedom from fear and want so easily off our tongues, let's begin to show it by taking steps to eliminate preventable fires.

## When Gasoline Made History!

When a handful of British pilots held the whole German air force at bay in the battle of Britain, the course of the world history was determined for centuries to come. However, the battle of Britain was actually decided long before those fateful days when machine guns cracked thousands of feet above the city of London. It was decided in laboratories many years before. It was decided when the planes and the fuel were designed which proved superior to the best that the Germans had in the crucial test of combat.

A dozen years ago, scientists in the oil industry had managed to bring the production cost of the new 100-octane gasoline down to a dollar a gallon. Military authorities, feeling that its value outweighed its cost, ordered a whole tank car to be painstakingly produced with small scale apparatus. So promising were results and the progress of petroleum laboratories in making synthetic fuels at lower cost, that well before this war began, our Army and Navy decided to build

their engines to operate on 100-octane fuel. When the battle of Britain occurred it was fought and won with 100-octane gasoline.

As a prominent chemist remarked: "Ten to thirteen octane numbers may well have shaped the history of the world in that battle!"

## A Layman's Responsibility

The Laymen's National Committee of New York, founders and sponsors of National Bible Week, will institute National Sunday School Week, April 9 to 15, 1945. The sole purpose is to stimulate Sunday School attendance and support.

Admiral Reginald R. Belknap, Chairman of the Committee, says: "It is time to popularize the fact that a boy or girl who attends Sunday School, who is obedient to his parents and his teachers—is not a 'sissy,' but a real American. National Sunday School Week will endeavor to get over that every parent is not only derelict in his duties, but he cannot expect to enjoy the respect, admiration, or even the company of his friends and associates, if he does not make some effort, some sacrifice to insure his children a knowledge of God. America was founded on man's consciousness of God, man's daily labor, and the fruits therefrom. Until there is again a universal recognition of the importance of assuring American children a knowledge of God, the very principals that served to create this country of ours, will continue to be in jeopardy."

Concerted action should be instituted to popularize Sunday School attendance, to give the youth of the nation a stabilizing influence to counteract the irresponsible thinking that inevitably follows war. The fact that strength of character develops with a better understanding of the relative importance of the spiritual and the material, is evidenced by the experiences of the boys on the fighting fronts. The same stabilizing influence must be encouraged in our domestic life.

### LOUISIANA'S CAPITOL

The tallest building in the South, Louisiana's capitol at Baton Rouge—34 stories, 450 feet in height—stands on the campus of the old State University. It supersedes the modest structure completed in 1849 and equipped with furnishings from Europe that had been dispatched to Emperor Maximilian of Mexico but arrived after his death. The present capitol proclaims Louisiana's faith in its opportunities for future generations in industry and agriculture. Thousands of Louisiana's sons are fighting to preserve those opportunities, and War Bonds supply them munitions.

## Bonds Over America

### CATAMOUNT TAVERN

The Second Continental Congress met at Philadelphia on May 19, 1775. That day Ethan Allen and his Green Mountain boys demanded the surrender of Fort Ticonderoga, N. Y. They were not going to let any overseas dictators tax or rule them, and neither are Americans today. That is one reason why we buy War Bonds. The preparations for that drive against the Lake Champlain stronghold were made secretly at a night meeting at little old Catamount Tavern at Bennington, Vt. The catamount monument shown above now stands on the site.

U. S. Treasury Department

Mrs. Kate Miller, Mrs. James McClure and daughter and Huldah Kimball of Genoa City called Sunday on Mr. and Mrs. David Kimball.

## A good report card...

In Northern Illinois... in business and home... in war plant and on the farm... electricity lightens the way. It powers the machines that produce the goods we need... it brings entertainment... it makes the work-day easier... life more comfortable. Electricity is doing the biggest and most important job in its history.

When America entered the war, Northern Illinois answered the call... and found that it had the power to do the job.

Power went to work in hundreds of war plants to produce fighting tools for fighting men.

Farmers found electricity ready as the ideal hired man to help in the tremendous task of feeding an America at war. A hired man with no time off... no days off... and at the lowest wages in history.

In the home—city or country—electricity proved ever the faithful servant... helping in a hundred ways... working round the clock to give war workers extra time for added activities.

Electric power is proud to report that its dependable, low-cost services are available to 86% of the farms and all of the homes and war plants in the Northern Illinois area.

## In perfect working order—BUT

## ... NOT ready for action

without means of linking it to any other telephone anywhere

Your telephone has a whole set of working parts assigned to its exclusive use and essential to such use, parts that may be located miles distant from the instrument itself.

To put one telephone in service, we must provide circuits all the way from the instrument to a switchboard, a switchboard outlet, circuit making and breaking devices, and a lot of other complicated equipment, without which a telephone cannot do its job.

Telephone facilities have been stretched to the limit by the needs of war. Even when more instruments are again available, we will not be able to fill all applications for service immediately, due to other shortages all along the line.

We appreciate the patience of those on the telephone waiting list—and will do our utmost to serve them all at the earliest possible moment.

## Legion Auxiliary Is Co-hostess at Downey March Birthday Party

A contribution of \$10 to be applied toward the purchase of an electric organ for one of the government hospitals and another of \$25 for the Antioch Township Red Cross drive were voted by the Antioch American Legion auxiliary at a meeting Friday evening.

Reports were given on the "March birthday party" for patients at Downey hospital, given Thursday in co-operation with the Fox Lake auxiliary. The Antioch group was responsible for the providing of 7 cartons of cigarettes, 164 cupcakes, 2 pounds of coffee, 7 jig-saw puzzles, 205 magazines and a large birthday cake for the occasion. The party was held in the Downey recreation room, where cards were played.

Those attending from here included Mmes. Louise Kaufmann, Lillian Hand, Tillie Miller, Elsie Hays, Eva Burnette, Agnes Hills and Addie Horton. While at Downey, the group called on Floyd Horton, who is a medical patient there.

The report was made that Mrs. Maud Johnson had donated 10 dozen cookies to the North Chicago U. S. O. and had worked there last Thursday.

The appreciation of the veterans who were guests at the party last Thursday is expressed in a letter written by one of them, Louis A. Huebner, who served in the first world war, to the Antioch auxiliary:

"My dear Mrs. Hand and friends—

"This note will try to express the sentiment of the boys who participated in your so successful birthday party here at Downey. A bunch of good scouts you are, also in playing cards. The boys all wish to express their sincere thanks for the really lavish lay-out of 'cats' and cigarettes. You may rest assured that whatever you did today will be remembered at least for one year.

"Our attendants here have their orders, and as everything here is adhered to in strict schedule, one must obey. For, after all, that is all we have to do here, obey and co-operate. When once this is achieved, then the patient is well on his home. After all, the young men here only fought too hard, and we of the first world war made it possible for them to have a country to fight for—Again let me tell you, everyone of you, regardless of whether it is recreation, church or a basket picnic, that the boys enjoy, you girls make it possible for these men to look forward to something more than just melancholy and self-pity.

"Would, then, all of you accept this letter as a tribute to folks who good people and well meaning, who do help conscientious management here to conduct this hospital on a more pleasant scale, and who want us all to recover, soon, and march home-ward? Thanks for a very, very pleasant afternoon!"

## Parents' Example Is Important in Safety Work, P. T. A. Told

A parent's example in observing or not observing safety rules has a marked effect on the behavior of a child, Sgt. John De Pew, of the Illinois state highway police safety division, told members of the Antioch Grade School Parent Teacher association at a meeting Monday evening in the Antioch Grade school.

Safety teachings in school will not help children a great deal if parents do not reinforce them by their own examples, Sgt. De Pew emphasized. A talk on the proposed new tennis and basketball court for the school was given by H. E. Cardiff, who also touched on summer recreation plans for the children.

The sum of \$5.80 was raised at the meeting from the sale of doughnuts and other refreshments left over from the social hour, and this was turned over by the P. T. A. to the fund for the new court.

Certificates were awarded to the parents of several children who were found to be in "perfect health" during the summer roundup. The children included Lynn Gray, Tammy Carey, Robert Cain, Thomas McGreal, Sheryl Mair, David Cain, Richard Knig, Donald Lubkeman, Billy Birkhead, Kenneth Anderson and Joan Mair.

The room prize for the attendance of parents went to both the first and second grades, on a tie.

## VANDERZEE-PATRICK ENGAGEMENT ANNOUNCED

Mr. and Mrs. Peter VanderZee of Slades Corners, Wis., announce the engagement of their daughter, Georgia E. VanderZee, to Sgt. Ray B. Patrick, son of Mr. and Mrs. Byron Patrick, Salem, Wis.

Miss VanderZee is a graduate of Union Free High school, Wilmet, Wis., and at present is cashier for Montgomery Ward and Company, Aurora, Ill.

Sgt. Patrick, a graduate of Antioch Township High school and at present home on furlough, has been serving with the Army Air force overseas.

## "Order Limestone Early"

Farmers are being advised by the Lake County Farm bureau to make arrangements for getting limestone now, and to accept delivery whenever it can be made. "The supply available is limited, and production can be maintained only by ordering early," the bureau emphasizes.

"Quarries are short of help, and transportation facilities are in heavy demand. If farmers wait until the time comes when they need the agricultural limestone for spreading, then there will be too large a load on quarries, railroads and trucks, and more farmers than necessary will be disappointed."

"Application of limestone is one of the 1945 Illinois AAA conservation practices, and payments can be earned for the performance of this practice. It is especially important that farmers who plan to earn their farm allowance through the applying of lime and fertilizer make sure they will get their supply by ordering early and taking immediate delivery. Then, if it is impossible to get the material, they will have ample time to carry out other practices and thus earn their farm allowance and improve their soil at the same time. Information as to the various production practices may be had by inquiring at the Lake county AAA office at Grayslake."

## Library News

New fiction at the Antioch-Township library includes "Blessed Are the Meek" by Zofia Kossak. Described as an historical novel in the grand tradition, it gives an exciting picture of the early thirteenth century. "A Bell for Adano" by John Hersey is timely. It deals with the problems of restoring Italy's self-sufficiency by telling the story of the warm-hearted and democratic Major Joppo.

"Immortal Wife" by Irving Stone is the story of Jessie Benton Fremont. As the wife of John Fremont, her story is closely linked to the thrilling tale of our westward expansion.

"The Affair of the Dead Stranger" by Clifford Knight and "The Jade Venus" by George Coxe are new additions for mystery story fans.

Ezra Stone, radio's Henry Aldrich, tells of his adventures when he changed to khaki in "Coming, Major!" Bennett Cerf's "Try and Stop Me" contains hundreds of anecdotes of the world of the theatre, movies and books.

Of especial interest to homemakers, the two books, "Primer of America Antiques" and "Know Your Merchandise" give much useful information.

## ROYAL NEIGHBORS AT GRAYSLAKE CELEBRATE 45TH ANNIVERSARY

Several members of the Antioch Royal Neighbor camp attended the forty-fifth anniversary celebration held by the Grayslake organization Monday evening. Among them were Mmes. Agnes Hills, Effie Nelson, Nellie Hanke, Mary Runyard, Elsie Horton, Minnie Soules, Gladys Wilton and Myrtle Klass.

## RAINBOW GIRLS INITIATE TWO NEW MEMBERS

The Misses Norma Jarnigo and Barbara Horton were initiated into Antioch chapter, Order of the Rainbow Girls, at a meeting Monday evening in the Masonic temple.

Refreshments and dancing were enjoyed afterward.

The next meeting of the group will be held Monday evening, March 26.

## CAPT. DEERING RECEIVES BRONZE STAR CITATION

A copy of the following general order from Headquarters, Corps, APO 340, New York, has been received—

"Captain David Deering, Medical Corps \*\*\* Antiaircraft Artillery Gun Battalion (Mobile), for heroic service in connection with military operations against the enemy on France on One night near heavy casualties were received by an engineer company stationed nearby. Running to the area, Captain Deering at once began to administer treatment despite the continuing heavy shelling. For the next 45 minutes, though the area was not masked from enemy observation, he persevered at his work, giving timely assistance to men who otherwise might have died. His cour-

ageous attention to duty, medical skill and determined persistence were an inspiration to all around him and were in keeping with the highest traditions of the Army of the United States.

"I received your splendid paper almost weekly since the mail system has been changed over here, but I notice that it still comes with my old address and rank on it," Sgt. Robert E. Bartlett says, bringing the information file up to date. "Since this undoubtedly results in more work for the postal section and a later delivery, I think it best if the right address is used—APO 655, New York."

Sgt. Ray B. Patrick, who has been home on furlough after 13 months in the European theater of operations, expects to leave soon to return to duty overseas.

## LAKE VILLA

Next Sunday evening at 5 o'clock the quarterly conference (the annual meeting of the church) will be held in the parlors of the church. "This is a very important meeting and all our people should be present," board members announce. "It is not a meeting for the members of the official board only, so why not pack a few sandwiches or a cake or cookies and plan to eat luncheon with the group and stay for the meeting? It will be a good opportunity to become better acquainted with the church and with our District Superintendent, Dr. Fowler, who will preside."

The executive board of W. S. C. S. will meet on the third Wednesday afternoon for business, at the Charles Hamlin home.

A group of women of W. S. C. S. met Monday with Mrs. Henry Cable to sew for the summer sale.

Mrs. Emma Brinkman of Chicago visited friends here Saturday and Sunday.

Mrs. Lulu Nelson is spending two weeks with relatives in Chicago.

Mrs. C. N. Dunbar of Petite Lake Highlands left last Saturday to visit her daughter and family in Boston, Mass., for two weeks.

Mrs. Eugene Sheehan and daughters of Antioch were guests at the Charles Hamlin home, at the meeting of the Sewing club.

Mrs. Ben Cribb entertained several mothers of small children at a party at her home last Saturday afternoon in honor of her daughter Nancy's second birthday.

Mr. and Mrs. Clifford Glosser of Maywood called on friends here last Saturday.

Mrs. Wilbur Madsen was guest of honor at a miscellaneous shower held last Friday evening at the Charles Madsen home.

Walter Schneider has recently completed the purchase of the Glosser property on Grand avenue formerly owned and occupied by Mr. and Mrs. James Atwell.

The local P. T. A. will hold a meeting in the school house next Monday evening and the men of the association will be in charge. Miss White of the T. B. association will give a talk on the tuberculosis situation and will illustrate it with pictures.

New York, March 16—A special dispatch from London says: "London financial circles are deeply interested in the question of the floating of the Chinese loan if the negotiations for peace depend upon China paying a heavy indemnity to Japan. The last Chinese loan was an absolute failure on the London and continental markets, although it was guaranteed by customs duties at the treaty ports. The representatives of the Rothschilds and other large firms here said that no propositions have been received yet from China for an indemnity loan. If it is very large there will certainly be the greatest difficulty in negotiating it. There would be less difficulty if Japan should occupy Peking and administer the affairs of the Chinese empire."

## The Observer

We are bound to admit that Fla. has some alert press agents, and in evidence thereof we cite the following dispatch, for which we are indebted to the St. Petersburg News Service:

By Pressly Phillips (special)  
"I'm from Illinois. Where are you from?"

How many thousands of impromptu introductions, renewal of old acquaintances and even beginnings of romance have resulted from these casually spoken words on St. Petersburg's famous green benches are incalculable, but the number is prodigious. Naming your home state and asking your green bench neighbor his, is strictly Emily Post etiquette in the Sunshine City, and likely as not will reveal the fact that the two new friends live only a few miles apart, back home, or even on the same street.

Only three or four states in the Union contribute more visitors to St. Petersburg's winter population than Illinois, and in state society and other social and recreational activity here Illinois is among the first. Every second and fourth Friday of the month the Illinois State society of more than 300 members meets in the big Tourist Center building on Fourth street south, and plans picnics, dances, boat rides, card parties, musicales and other entertainment events crowding the busy winter season.

Walter M. Hay of Somonauk is president of the Illinois society and Mrs. Adelaide Bleims of Chicago is treasurer.

Among those registering at the Chamber of Commerce during the past fortnight from Antioch are Mr. and Mrs. Fred J. Berg, and George J. Grosscup.

Many persons have wondered just what sort of a funeral sermon would be preached over them when they passed away, but it remained for the late Lewis E. Myers, president of the Allendale association, to settle that question himself.

Myers, who died a few weeks ago at the age of 82, wrote his own funeral sermon. It was read at the services by his close friend, the Rev. John Rushton Heyworth, minister of Unity church, Chicago.

Myers' sermon, and the commentaries by Rev. Heyworth, are being printed in booklet form from the original manuscripts by the Allendale Press as a memorial to the man who was for many years deeply interested in the welfare of the Allendale School for Boys.

Mrs. Lester Nelson has been a patient in St. Therese hospital.

Mrs. Dan Sheehan and Mrs. Arthur Hall, both of Lake Villa, are patients in St. Therese hospital.

Miss Lillie Ames is ill at Lake County hospital, Waukegan.

Although himself rated as an exceedingly wealthy man, Myers was noted for his lack of reverence for wealth as a mark of social prestige. He was engaged in the contracting business and supervised the construction of many large engineering projects, including the digging of a canal through Cuba and the building of the Skokie Valley North Shore line.

Throughout his lifetime, he was interested in charitable and welfare work, and was particularly staunch in his admiration for and support of the Salvation Army, to which he left his estate at Lake Geneva.

The army makes mistakes, too—Sgt. Joseph Kusaila, 24, of Waterbury, Conn., who was "washed out" of officer candidate school at Fort Benning, Ga., on the grounds that he "lacked the qualifications of a leader," recently declined the award of a bronze star medal for action overseas. Kusaila, now a patient in an army hospital in Louisville, Ky., with his right arm broken and partially paralyzed by a shell fragment, is reported to have led an assault against enemy positions in the face of enemy fire. The medal award was "for leadership under fire."

Yes, the army does make mistakes. But if we were Sgt. Kusaila, we believe we'd take that medal. He's earned it—the hard way. And in years to come it may not be so important to him whether or not the army once felt that he had qualifications for leadership—as that in the pinches where it really counts, he himself will know that he has them.

Of the 942 different civilian students registering at Illinois State Normal university, Normal, Ill., year, 348 have been holders of high school scholarships, a news release announces.

Such a scholarship awarded to a high school graduate of superior scholastic standing exempts the student from paying \$120 in state fees over a four-year period. Figures show that ISNU students alone have been saved \$9,960 this year through the high school scholarship law.

Students from this vicinity now attending Illinois State Normal university and holding high school scholarships are Kathleen Fields, daughter of Mrs. John Fields, Antioch; June Lucille Dalziel, daughter of Mr. and Mrs. Guy Dalziel, Ingleside; Williamette Herrick, daughter of Mr. and Mrs. Harry Herrick, Anne Arbor farm, Wadsworth.

The group received its original gold-rimmed blue ribbon for an attack on the Prufening aircraft factory at Regensburg, Germany, on Feb. 25. The cluster was added for a mission over the Ploesti, Rumania, oil refineries on April 5.

The citations read, in part: For Regensburg: "Notified to prepare... maximum aircraft, personnel worked feverishly, enthusiastically and with untiring intensity... The tremendous material damage inflicted contributed to the curtailment of aircraft production by the enemy at a time of great importance."

For Ploesti: "Under the most difficult and trying conditions on the ground and despite extremely adverse weather conditions in the air, the group... successfully delivered a devastating blow to the important enemy oil installations."

"The grim determination and heroic courage of the combat crews, together with the professional skill and devotion to duty of the ground personnel... are outstanding in the history of aerial warfare."

Sgt. Nelson was graduated from Antioch Township High school in June, 1937. He attended R. C. A. institute, Urbana, Ill., before entering the army Oct. 17, 1941. TO ALL "B" AND "C" CARD HOLDERS, the quotas of new tires that the districts are getting, are becoming smaller all the time and, (don't just pass this off), by summer time you may have a certificate for new tires but not be able to obtain them unless you buy some inferior grade without the manufacturer's name on the casing, and then ride on them with a constant fear of what may happen.

## Vice-President in charge of Tomorrow !

Yes, she's a woman.

Wife. Mother. Cook. Maid of all work. Partner with her man in the going concern we Americans call home.

More than that, as keeper-of-the-household-budget, she's salting away every cent the family doesn't absolutely need for upkeep in a little project she likes to call Tomorrow.

She's putting her money in WAR BONDS... the soundest financial backing anyone's Tomorrow ever had.

And because she's a shrewd woman, she is determined to hold on to those War Bonds in spite of any temptation she has to cash them in. She knows that by holding her War Bonds until they mature, they'll be worth \$4 for every \$3 she put into them. And she'll have that money when Tomorrow comes!

Of course, the beauty of it all is that, in the meantime, she's giving her country patriotic help in winning the war today!

Smart woman! America needs millions like her.

## Warsaw Scene Of Many Wars

Polish Capital Has Been Held  
In Modern Times By  
11 Conquerors.

NEW YORK. — The latest chapter in the stormy history of the city of Warsaw was enacted when the Russian army captured it recently. In modern times Warsaw has been occupied by foreign troops 11 times and has been the scene of many riots and insurrections.

During the years since Hitler plunged the world into the present conflict Warsaw has withstood two long and bloody sieges. On September 27, 1939, the city fell to the Germans after 20 days of epic resistance during which the Nazis released their "total war" against the ancient capital high on the west bank of the Vistula river, says the Chicago Tribune.

On August 1, 1944, Polish patriots within the city, fired by the approach of the Russian army, rose in revolt against the Germans. The Russians failed to break through the Nazi defense ring around the city and for 63 days the Polish underground fought on with supplies dropped by Allied planes. Finally on October 3 Lieut. Gen. Tadeusz Komorowski (General Bor) announced his partisan forces had surrendered.

Before the Polish capital fell to the Germans more than 60,000 persons of whom more than half were women and children had been killed by Nazi dive-bomber attacks and heavy artillery barrages. Some 100,000 other civilians were wounded.

**Became Capital in 1550.**  
Warsaw is not an old city as European cities go. It seems to have emerged into history in the 13th century, although there are unverifiable surmises about an earlier history going back to perhaps the 9th century.

In 1550 it first became the capital of the then powerful Polish kingdom. King Charles Gustave of Sweden captured it in 1655 and held it for a year, when the Poles recaptured it. The city was severely damaged when King Charles XII of Sweden took it in 1702, but it became free again when peace was declared the following year.

The Russians took possession of it in 1764. Then in 1773 came the first partitioning of Poland and it went to Prussia. The Russians took it again in 1794 after a bloody assault.

Troops of Napoleon occupied it in 1806. The Austrians seized it in 1809, but gave it up after a few months and it once more became independent. The Russians captured it in 1813 and in 1830 there was an insurrection. After much bloodshed the Russians recaptured it the next year and held it through numerous uprisings until 1915 when the Germans captured it during the first World War.

**Wrecked by Nazis.**  
Four separate offensives were undertaken by Germany in 1915 to reduce Russia's Polish salient, of which Warsaw was the center.

When the German armies began to disintegrate in 1918 the Poles set up their own government and for the third time in five centuries Warsaw became the capital of an independent Poland.

For nearly 21 years then, Warsaw was the capital of the Polish republic which arose from the ashes of the World War.

During the German occupation since 1939, Polish land and businesses were confiscated and given to Germans.

The Poles are a proud people whose reaction to attempts to deprive them of their liberty and their cultural heritage has repeatedly been one of violent rebellion.

The insurrection of 1863 against Russia resulted from a punitive and repressive policy almost unmatched in 19th century Europe. Death, banishment, confiscation of property, the closing of educational and religious establishments were among the devices Russia then used in an attempt to expunge the name and memory of Poland.

Until it was ruined in the present war, Warsaw was one of the pleasantest cities in Europe.

## Yank's Gun Is Empty, but

### 34 Nazis Throw Up Hands

WITH AMERICAN SEVENTH ARMY, WESTERN FRONT. — First Lieut. James Tower of Grand Island, N. Y., pointed his carbine down into a German machine gun nest and forced 34 Germans to emerge with their hands up.

All alone, he was marching his prisoners down the road toward a collecting point when a fellow officer joined him on the double.

"Don't look now, Jim," the other officer whispered, "but you haven't got any magazine in your carbine."

## When Girl Whistles

### She's Not After Date

LARAMIE, WYO.—Girls whistling at men on the University of Wyoming campus are not seeking dates. They are members of Spurs, a women's organization, engaged in a "keep off the grass" campaign. The girls have equipped themselves with police whistles, to be blown when errant feet—feminine or masculine—trample the campus green.

## Belgians Victims Of Nazi Tortures

British Army Report Tells of  
Brutal Treatment.

TWENTY-FIRST ARMY GROUP HEADQUARTERS, WESTERN FRONT.—An official British army report revealed the details of fiendish tortures inflicted on men and women in eight low country concentration camps by the Germans during the occupation.

Most of the victims were Belgian civilians, and hundreds freed by liberating armies made sworn statements which were carefully documented in the report of more than 70 pages.

Accompanying the report were photographs of a torture chamber and instruments used at the Breendonk camp, where at least 350 persons were believed executed and another 300 died agonizing deaths at the hands of their Nazi tormentors.

The investigation also covered camps at: Brussels, Charleroi, Osttracher, Limbourg, Bourg-Leopold, Antwerp and Liege, but the horrors of the windowless, stone torture chamber at Breendonk were perhaps the worst.

There the victims were stripped, handcuffed and beaten below the belt or the face with a truncheon or cat o' nine tails, hauled to the ceiling by a rope and pulley, beaten and dropped on the sharp edges of cunningly placed wooden blocks; lashed to a table and burned about the body with lighted cigar ends and electrically heated metal plates or needles; their fingers crushed in a special press.

In the floor of the chamber the Nazis had cut a drain to carry off the blood of the victims.

Prisoners were taken into the courtyard every day and forced to watch while their fellow captives were tortured. The most common punishment was 30 strokes on the bare back with a stick that flayed the flesh to pulp. The following day the victim of this treatment customarily was ordered to work all day carrying bricks.

## Yank Studies Off Duty;

### Bettors U. S. Bombsight

LONDON.—Sgt. Sigmund Kramer, 29, Cleveland, Ohio, a bombsight maintenance man, has invented a valued bombsight attachment, it was announced recently.

Kramer, who studies calculus off duty, had heard fortress crews complain of having to make two runs over a target and getting punished the second time as enemy guns got their range. His invention, the altitude drum lock, prevents accidental movement of a knob on the bombsight by a bombardier's knee. With the altitude drum lock fixed, this risk is eliminated and flyers' lives are saved.

Kramer made the first model of his invention, which is used on all modern bombsights in the European theater of operations, from a piece of scrap metal. One of his first inventions was his name, Kramer, which he substituted for Krajewski when he was 21.

## Reveal B-29s Get Fuel

### From Aerial Tankers

DAYTON, OHIO.—Another chapter in the story of B-29 strikes against Japan unfolded recently with disclosure that China-based Superforts draw their fuel, in part, from gasoline flown "over the hump" by huge four-engine tankers.

The air technical service command, with headquarters at Wright field, described the aerial tankers as stripped B-24 Liberators. So completely are the converted craft—known as C-109s—given over to their task that their own gasoline is drawn directly from the cargo tanks.

The ATSC said that while other planes, including the C-46, C-47, and C-54 "can also deliver fuel in drums, the C-109 has by far the greatest carrying capacity with its specially designed tanks in the nose, wings, bomb bay, and fuselage." No figure was given.

## American Observer Says

### 2 Million Starve in Italy

NEW YORK. — Howard B. Barry, assistant to Myron C. Taylor, President Roosevelt's personal envoy to the Vatican, said recently that 2 million persons are starving in Italy.

Barry, recently returned from Naples, said in an interview at the national headquarters of American Relief for Italy, Inc., that 27 million others are on sparse rations that amount to about five slices of bread daily.

Many towns, he said, have not a single building standing, and women and children live in rubble and sleep on straw pallets. Much land has been made too dangerous to till or harvest because of mines that the Allies have not had a chance to clear.

## Yank General Presents

### 'Monty' Famed Insignia

WESTERN FRONT. — Field Marshal Montgomery, visiting the famous 104th American infantry division, expressed admiration for the unit's shoulder insignia, the head of a timberwolf.

"Give me your pen knife," said Maj. Gen. Terry Allen, divisional commander.

He snipped off his own shoulder patch and gave it to Montgomery.

## Tells of Death March of Jews

Driven Out of Budapest by  
Nazis, Thousands Die on  
Way to Austria.

GENEVA. — How tens of thousands of Hungarian Jews perished in an epic "march of death" from Budapest to the Austrian frontier has been revealed here by one of the "marchers" who escaped to Switzerland. His eye-witness story, as published in the Swiss press, says: "In the early days of November, thousands of Jews—men, women and children—were herded together in Budapest and driven afoot toward the Austrian border. For seven or eight days we marched an average of 30 kilometers daily, sometimes under heavy, cold rain. Before we set out, Hungarian Nazis searched us to prevent us from taking along any valuables. Our identity documents were taken away from us.

"The road leading from Budapest, via Komaron to the Hungarian border town of Hegyshalom, is more than 120 kilometers long. We were accompanied by members of the anti-Semitic Arrow Cross party. Anyone who showed signs of a breakdown was immediately shot. Wet through and through, our clothes torn to pieces, we had to spend nights sleeping along the roadside. Every two days we received a plate of watery soup and this was all.

**Terror Is Described.**  
"Of 100,000 Jews who started from Budapest, only 75,000 reached the Austrian frontier. We were sent across the border in groups of 500. The Germans, however, selected only those who were fit for hard labor. The others were returned and driven into the woods, where many died of disease, exposure and starvation."

Meanwhile, the first authentic report of what has happened to the Jews in Budapest and other sections of Hungary since last March, when the German army occupied the country, reached here recently. It was smuggled out of Budapest.

"The Germans," the report says, "immediately started segregating Jews in ghettos. This was followed by mass deportations, so that by the middle of July not a single Jew remained in the Hungarian part of Transylvania, the Carpathian section of the country and southern Hungary. More than 600,000 Jews were deported within two months, most of them to the extermination camp of Oswiecim in German-occupied Poland."

"From Budapest only about 10,000 were deported at that time, while more than 250,000 were herded into special 'Jewish buildings.' It was hoped these Jews would not be molested, but the situation took a new turn in October, soon after the pro-Nazi Szalasi government came to power."

**Thousands Die in Streets.**  
Acting upon the orders of Premier Ferenc Szalasi and supported by German troops, Arrow Cross units carried out a pogrom on October 15 during which many thousands of Jews were massacred in the Budapest streets, the report continues. On the pretext that Jews were hiding arms, Arrow Cross units invaded Jewish homes, dragged residents into the streets and killed them. German tanks and armored cars fired at buildings that Jewish residents refused to leave.

The next day an order was issued prohibiting Jews to leave their dwellings. For five days they could get no food. This was followed by segregation of all Jews in a ghetto around Tabak street.

About 14,000 Jews in Budapest, holders of Palestine emigration certificates and "security passports" issued by the Swiss and Swedish legations, were taken under the protection of the International Red Cross. They were confined in special houses in a fashionable section.

Soon Arrow Cross units began to hunt for Jews in this section. Several thousand holders of Swiss and Swedish passports were dragged into a synagogue, brutally beaten and their "security passports" torn up. They were then sent to a factory that was the center where Jewish slave laborers were held.

## So Many Nazis Captured

### Yank Pens Can't Hold 'Em

WITH AN AMERICAN DIVISION NEAR WILTZ, LUXEMBURG. — When the Germans tried to escape from a pocket southeast of Bastogne this infantry division took so many prisoners it didn't know what to do with them. The score soon mounted to 2,000, with stragglers still coming in. One regimental enclosure was too small to hold them so 600 were turned into an open field.

## Traffic Accidents

### Blamed on Drinking

CHICAGO. — Of the fatal automobile accidents occurring in 1943, about one in five involved a driver or pedestrian who had been drinking, according to the National Safety Council.

Summaries show that one of every eight drivers and one of every five pedestrians involved in fatal traffic accidents had been drinking.

**Must Be Pressed**  
Some sweaters need to be lightly pressed or "blocked" to give them a finished appearance after they've been washed. To block, wait until the sweater is practically dry. Then cover it with a dry press cloth, then a dampened press cloth. Barely touch a warm iron to the top press cloth until moisture steams through the sweater. Take off both press cloths and leave the sweater until it is thoroughly dry.
